Cooperative Occupational Education (COE)

COE extends student learning opportunities beyond the school building into the workplace. Students experience real-work situations that supplement the classroom knowledge. They have the opportunity to explore career areas, earn school credit and a paycheck while gaining valuable experience working in a local business. We offer Marketing, Business and Technical/Industrial COE which includes placement in auto services, culinary arts, drafting, home building, machine tool technology and graphic communications.

Preparation for almost all careers requires specific academic and technical knowledge and skills. Requirements for well-paying careers continue to increase making education and training beyond high school a necessity. Ann Arbor Public School Career and Technical Education is designed to provide knowledge and skills leading to initial employment and/or advanced post secondary education upon high school completion. Career and Technical Education will provide opportunities for all interested students to:

- **Explore and experience a wide variety of career and technical applications and occupations.**
Students can study and learn about the expansive range of careers and jobs within their area of interests while in high school.
- **Develop marketable technical and employability skills**
Students can be ready to work in entry-level occupations upon graduation.
- **Earn college credit while in high school**
Students may qualify for hours of college credit towards an associates degree based on the CTE coursework they have completed. Speak with the counselor about articulating college credit at Washtenaw Community College.

For More Information

Call the counselor at your high school or stop by the Career Resource Centers for more information.
