

Dear Parents:

On Friday, July 28<sup>th</sup>, your child will participate in a learning program from Goldfish Swim School – the *Goldfish W.A.T.E.R. Safety Program*. This water safety and drowning prevention program is based on the principles taught by the Safer 3 Water Safety Foundation.

The program is a structured, fun 20-minute lesson focused on completing the following goals:

- Introducing kids to the concept of water safety and helping them learn safety methods to avoid potential dangers in and around the water
- Educating children about the importance of water safety and ways to handle water crisis situations
- Providing materials and information to your children and you in an effort to prevent water-related accidents

We hope that this fun and educational program reinforces water safety skills and introduces new ways for your family to stay safer while enjoying the water. Please contact us if you have questions about the program or about water safety for your family.

Sincerely,

Safety Town
