Ché Carter, Principal

August 2019

To Parents/Guardians of Students enrolled in Safety, Wellness, and Reproductive Health:

During this year, your student will be enrolled in our required one quarter course, Safety, Wellness and Reproductive Health. This course consists of four (4) major units: Substance Use and Abuse, Physical Fitness and Nutrition, Mental and Emotional Well-Being and Reproductive Health.

During the process of developing the Reproductive Health Unit, the district followed specific guidelines from the State Board of Education and the Michigan Department of Education. Consistent with these guidelines, the Board of Education appointed an advisory committee to oversee the development and implementation of this unit. The advisory committee consists of physicians, community health professionals, clergy, parents, teachers, an administrator, and students. In accordance with the guidelines and law, you have a right to review the materials used in this unit and should contact your student's teacher if you desire to do so. You also have the right to remove your student without penalty from participation in the Reproductive Health Unit. If you choose to do so, please notify the principal in writing by Monday, September 30th.

In accordance with the guidelines, we are informing you via this letter that you have a right to review the instructional materials that will be used in the teaching of the Reproductive Health Unit. The materials will be available during curriculum Night. Please let the teacher know you would like to review the materials. If you have any concerns regarding other units in the course, please contact the teacher at 734-994-1976 for further information and options.

Sincerely,

Ché Carter, Principal
