

## **The 2017 School Climate Survey Is Here! Make Your Voice Count!**

Ann Arbor Public Schools' annual School Climate Survey is live **now through March 28th**. Now's your chance to share feedback about what our school does well and how we can improve. All parents, employees, and students in grades 3–12 are invited to participate. This survey will help us to identify trends in perceptions, monitor the climate in our school, evaluate our progress, and understand the ongoing needs of our community.

Survey questions address academic preparation, student support and engagement, school leadership, parent engagement, safety and behavior, and school operations, among other topics. All parents/guardians with a current email address on file received a personal invitation and survey link but parents may also take the survey at

<http://tiny.cc/AAPS2017ParentSurvey>. We are pleased to offer the survey in **English, Arabic, Chinese, Japanese, Korean, and Spanish**.

It's compatible with any computer, tablet, or smartphone and parents without Internet access can request a paper survey at our office.

Independent research and communications firm *K12 Insight* is administering the survey and compiling the results and **ALL responses are strictly confidential**. We hope you will take 15 minutes and share your experiences and perceptions with us.
