

Dear Middle School Parents and Guardians,

We encourage all middle school students to play sports at their schools! It's a great way to make friends and stay active.

Typically we offer two sports physical clinics at the beginning of each year as a convenience to parents. Unfortunately, we learned this week that our usual provider for these clinics is not available. We're working to find a replacement but aren't able to guarantee that the clinics will take place as usual.

We encourage parents/guardians to get a sports physical for their child(ren) before the start of school. ***Don't delay -- your child must have a physical to participate in the first season of middle school sports.***

There are many local resources for sports physicals, including your child's regular pediatrician. Please see the resource list below.
