

Hello Bryant Families!

We had a great Field Day! A couple SUPER MOMS led the way (Carmen Atkins and Kathy Owens) but we also had a HUGE group of parents show up for the fun and hard work. Thank you ALL!

The most important take away from any quality Physical Education program is that kids value what they have learned and that they take those values home to share with others. As summer approaches, ask your children what they enjoy the most about PE! Was it one of the many different sport skills, fitness exercises or a dance? Maybe it was a gymnastics balance or a fun game. If we know what they ENJOY we can help them stay motivated to grow. Then they can make a little bucket list of things THEY want to do this summer. Making connections over the summer helps them bridge past/current

knowledge and skills with the future. I invite all families to make a bucket list of activities you want to do this summer. Then summer becomes more "funner". That's what a kid would say! LOL.

I had an awesome first year in A2! For those who are graduating to Pattengill or moving on to other schools, stay "cool" this summer and thank you for giving me the opportunity to teach your child. For those returning, have a safe and active summer and be ready for a fun filled fall!

Mr. Willard
