

January 12, 2022

Dear Forsythe Middle School Community,

In accordance with the Michigan Department of Health and Human Services (MDHHS) guidelines for schools, I am communicating that two people who were last at Forsythe on 1/11/22 have reported being positive for COVID-19.

Our AAPS COVID-19 Response Team has conducted the district contact tracing protocol in consultation with the Washtenaw County Health Department.

The families of students who were in close contact have been notified individually.

As always, make sure you are observing your student for COVID-19 symptoms every day before they come to school. The student health questionnaire is linked [HERE](#).

If your student(s) are experiencing even mild symptoms, please get them tested. The WCHD has information about testing locations [HERE](#).

Please note that privacy regulations restrict us from sharing identifying/personal information about the individual(s) who have been diagnosed with COVID-19.

This situation reinforces the importance of consistently following all COVID-19 mitigation strategies and protocols. These include vaccination for everyone ages 5 and up, consistent use of face coverings and maintaining physical distance.

Sincerely,

Principal Newing

Forsythe Middle School
